

N-ETHYL PIPERAZINE

CAS Number: 5308-25-8

Other Names: Piperazine,1-ethyl; Piperidine, 1-ethyl-; n-ethyl-piperidine;

1-Ethylpiperidine; ethylpiperazine; 4-ethylpiperazine;
1-ethyl-1-azacyclohexane; N-methylpiperazine; 1-ethylpiperazin;
ethyl piperidine; 1-ethyl-piperidine; 1-ethyl-piperazine

Formula: C₆H₁₄N₂

PRODUCT INTRODUCTION

N-ethylpiperazine is a light liquid made by distillation of mixtures with N,N'-diethylpiperazine, piperazine, ethanol, water and accompanying substances. It is obtained after a 3 step distillation process.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Colorless or Light Yellow Liquid
Purity	99.5% min
Piperazine	0.10% max
N,N-Diethyl Piperazine	0.10% max
Water	0.30% max

APPLICATIONS

- Used to produce Enrofloxacin.
- Used as Dye and synthesis material of plant operator

PACKING OPTIONS

Drums
